EDUCATION

Gayatri Vidya Parishad College of Engineering *September 2023 - Present*
B.Tech in Computer Science and Engineering
Visakhapatnam
CGPA: 9.45 (Expected 2027)

Narayana Junior College *2021 - 2023*
Intermediate (MPC)
Percentage: 97.0

Sri Krishna Vidyapeet *2020 - 2021*
SSC
Percentage: 98.3

CAREER OBJECTIVE

Computer Science and Engineering student with experience in **Data Science**, **Machine Learning**, and **Software Development**. Looking for an internship to build predictive models and contribute to data-driven projects.

TECHNICAL STRENGTHS

Programming Languages:	Python, Java, C
Web Technologies:	HTML, CSS
Data Science and M.L.:	Machine Learning, Deep Learning, Power BI, SQL
Core Subjects:	Data Structures & Algorithms, OS, DBMS

PROJECTS

End-to-End Retail Data Analytics Project

- Designed a company-level end-to-end analytics workflow to analyze retail customer behavior and shopping trends.
- Performed data cleaning, exploratory data analysis, and business-driven SQL analysis, and built interactive Power BI dashboards for decision-making.

Tools Used: Python, Pandas, SQL, Power BI

Netflix Content Analysis using SQL

- Conducted SQL-based analysis on Netflix movies and TV shows to uncover trends in genres, ratings, and release patterns.
- Applied aggregations, subqueries, and window functions to answer real-world business questions.

Tools Used: SQL

YouTube Channel Web Scraping (GeeksforGeeks)

- Developed an automated web scraping pipeline to extract video metadata from the GeeksforGeeks YouTube channel.
- Cleaned, structured, and exported the scraped data into CSV format for further analysis and visualization.

Tools Used: Python, BeautifulSoup, Selenium, Pandas

Spam Classifier using Machine Learning

- Built a machine learning–based spam detection system using text preprocessing and feature extraction techniques.
- Trained and evaluated classification models to distinguish spam messages from legitimate content.

Tools Used: Python, NLP, Machine Learning

CERTIFICATES

Introduction to Data Science — Infosys Springboard

- Completed a foundational course covering data science concepts, data analytics lifecycle, and real-world applications.
- Gained hands-on understanding of data analysis, data-driven decision-making, and business problem-solving.

Python Programming — IBM, Infosys Springboard

- Learned core Python programming concepts including data structures, functions, and file handling.
- Applied Python for data manipulation and analysis using real-world examples.

INTERESTS

- Interested in Data Science and Machine Learning, exploring advancements to apply technology to real-world scenarios.
- Actively participate in hackathons, embracing challenges to develop creative tech solutions.
- Contributing to open-source projects, collaborating with developers to create innovative solutions.

EXTRA-CURRICULAR

Member of Rotract Club

Member of Decoration Team in College Freshers 2024
